Re: 3413556 Enterprise Cyber Security Integrations Leader
Healthcare Digital Technology
GE Healthcare

I am excited about the opportunity to become an Enterprise Cyber Security Integrations Leader with GE Healthcare. I meet the desired characteristics with skills and experience gained during my eight years serving with the United States Marine Corps and furthermore strengthened with customer service roles through Capital One. I am a recent graduate of University of Richmond's Full Stack Web Development six month bootcamp where I gained the technical skills needed to support the technical expertise required for this role. My personal attributes are closely aligned with the values, policies, procedures, perspectives, and problem solving in addition to all of the other requirements.

Desired Characteristics

- Strong team player – collaborates well with others to solve problems and actively incorporates input from various sources
- Experience working with others on a global basis
- Applies knowledge to coach and mentor others
- Demonstrated customer focus – evaluates decisions through the eyes of the customer, builds strong customer relationships, creates processes with customer viewpoint and partners with customers to help shape their future initiatives
- Strong analytical and strong problem-solving skills -communicates in a clear and succinct manner and effectively evaluates information / data to make decisions, anticipates obstacles and develops plans to resolve, creates actionable strategies and operational plans
- Change oriented – actively generates process improvements, champions and drives change initiatives, confronts difficult circumstances in creative ways, balances multiple and competing priorities and executes accordingly
- Proficiency with MS Office suite of products such as Excel, PowerPoint, and Word

Technical Expertise: (Experience with the following):

- Choosing, designing and implementing API and appropriate interfaces
- Managing common Database language and structures
- Common coding and scripting languages
- Application security and vulnerability management

Business Acumen:

- Understand key cross-functional concepts that impact the organization; is aware of business priorities and organizational dynamics.

Personal Attributes:

- Applies values, policies, procedures and precedent to make timely, routine decisions of limited, clear choice.
- Reacts open-mindedly to new perspectives or ideas. Considers different or unusual solutions when appropriate.
- Resolves day-to-day issues related to strategy implementation. Escalates issues that impact the client and/or strategic initiatives.

Sincerely,
Frederick Articulo
