Dominion Energy

Re: Associate Systems Analyst - Data Analytics

I am excited to apply for the Associate Systems Analyst - Data Analytics position. I've been impressed with Dominion Energy's performance and commitment to zero net emissions and would like the opportunity to formulate and define system scopes and objectives, through research and fact finding, to develop or modify moderately complex information systems. While working with an individual business unit, in a multi-platform environment, on multiple project assignments. Below are your requirements and my qualifications:

Your Requirements:

> Experience in application support is required; however, this experience may come from either education or employment.

> Background/experience in Data Analytics, Data Warehousing, or Data Science is preferred
> Experience/knowledge administering BI Platforms like Cognos BI, Business Objects etc. is preferred
> Strong problem solving skills, and attention to details with the ability to work both independently, as part of team.

> Strong interpersonal communication and written skills is required
> Proficiency in writing SQL Query and Shell scripting in Linux is preferred.
> Experience programming using Python, R etc. is preferred

These are only a few of my accomplishments. I look forward to speaking with you in more detail about my experience.

Sincerely,
Frederick Articuno

My Qualifications:

> I am a recent graduate of University Of Richmond's full stack coding boot camp (FEB 2020) and I have gained a wealth of introductory knowledge in developing/modifying complex information systems.

> I have demonstrated strong problem solving skills and even earned kudos from my classmates and instructors as "The person most likely to solve a problem that does not exist". I acquired a strengthened skill in attention to detail while serving 8 years in the United States Marine Corps and I am also more than capable of working alone or on a team.

> As a self starter I have taken many courses to improve my written and verbal communication skills including public speaking (Tidewater Community College) and Classroom Instruction for Marines (Marine Corps Institute). I also have experience with SQL, NoSQL, Shell Scripting and programming using Python v2.7 & v3
